Teak - 12

Chestnut - 13

Walnut - 14

Colors displayed were applied to pressure treated lumber and approximate the actual color. The actual color and opacity will vary depending on the color selected, wood type and porosity of the substrate. Always apply a test sample to the surface being stained to ensure the color selected is the desired finished appearance.

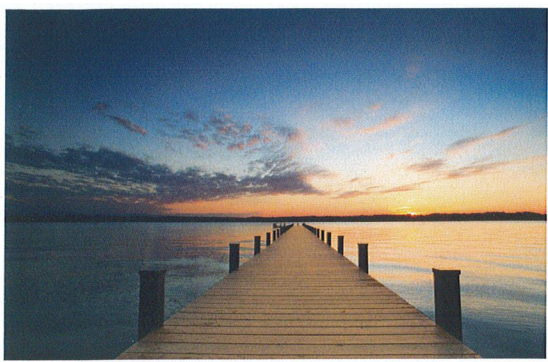

WOODRx ultra transparent stain/sealer employs advanced technology that no other competitor is using. It's the only sealer of its kind!!! It can be applied to all types of wood around your home and/or business.

 - Reusable Sprayer
 - 5 Year Warranty

ULTRA & CLEAR AVAILABLE IN:

1 gallon, 5 gallon & 2 gallon Sprayer

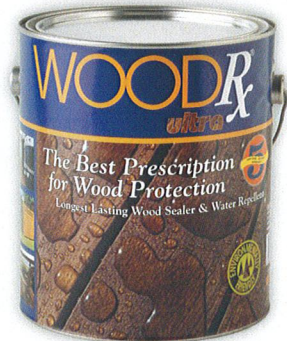

The **healthy way** to treat wood.

WOODRx is, by far, the best prescription for any wood surface. It is environmentally friendly and one of the most technologically advanced, water-based finishes that effectively penetrates, seals and protects exterior wood surfaces. WOODRx resists moisture penetration and slows the aging (silvering) process of new wood. It contains effective fungicides that resist mold & mildew growth, and powerful UV screeners that filter out the sun's harmful rays. WOODRx protects and beautifies wood surfaces 3-5 times longer than conventional, competitive sealers.

WOODRx may be used on virtually all interior and exterior wood surfaces such as decks, docks, sidings, specialty hardwoods, pressure-treated lumber, garden furniture, playhouses, log homes, fences and cedar shake roofs.
